14:45 **Media interviews**

INTERNATIONAL
COUNCIL OF
CHEMICAL
ASSOCIATIONS

Who should attend

Ministers, delegates,
IGO leaders, NGOs, news media.
Open to all ICCM participants.

Format

A light lunch will be offered
before the side event, at 12:45.

Introduction and panel
discussion with Q&A.

ICCA members will be available
for news media interviews after
the event.

Purpose

Close cooperation between downstream
users and the chemical industry is
key in the development of sustainable
chemicals management.

This session will feature industry
examples showing cooperation on
chemicals management within the
supply chain, in the fields of construction,
apparel and electronics.

It will cover a.o. the benefits of risk-
versus hazard-based approaches,
the smart use of chemical lists for
safe chemicals management and
communication along the supply chain,
CBI protection, and the social benefits
from sustainable solutions provided
by the global chemical industry.

About ICCA

The International Council of Chemical Associations (ICCA) is the worldwide voice of the chemical industry, an industry with a 2014 turnover of more than €3,600 billion. ICCA members account for more than 90% of global chemical sales. With businesses in virtually every nation, driving innovation in six continents around the world, the chemical industry is creating jobs – directly employing 7 million educated and well-trained people and supporting 25 million related jobs in construction, manufacturing, transportation and more.

ICCA promotes and co-ordinates the Global Product Strategy, Responsible Care® and other voluntary chemical industry initiatives such as HPV and LRI. ICCA is one of the main channels of communication between the global chemical industry and various international organizations that are concerned with health, climate change and trade-related issues, including the United Nations Environment Programme (UNEP), the World Trade Organization (WTO) and the Organisation for Economic Co-operation & Development (OECD).
